

PROJECT INFORMATION

Administrative building Homann, Berga

Building contract:

General planning, construction management –
production facilities with administrative building
Administrative building: wooden column construction method
Thermal insulation: self-generated cellulose thermal insulation
The revolutionary thermal insulation material stands for:
- drastically reduced heating costs / Protection of nature and environment
- Pleasant room temperatures, also in the case of high temperatures
- Fire protection and sound insulation as in the case of thick walls
- Fire protection and balanced cryptoclimate

Client:

HOMANN Dämmstoffwerke GmbH & Co. KG, 06536 Berga

Total investment:

20 Mio. EUR

Planning/implementation: 1993 – 1994
